Project: No. 125768
OB Suite Renovations
Armstrong County Memorial Hospital

Dear Tom:

With 2 Phases completed and occupied, and only one more to go, I thought I should drop you a note to express our firm's appreciation for a job well done.

The complexity of renovations to an occupied Labor/Delivery/Recovery/Post Partum Unit, maintaining utilities serving areas not under construction, and a tight construction schedule, present some unusual problems and out-of-sequence scheduling.

These items require a great deal of contact between your personnel, the Owner, major subcontractors, and our office during this short period and the results reflect the efforts expended.

We would particularly like to express our appreciation to Steve Bishop and Bill Gaurich whose cooperation and coordination with all parties helped bring into being a Project we can all be proud of. Steve reflects your company's reputation for efficient project management and Bill impresses everyone with his concern for the quality of the finished product.

We again thank you for your efforts.

Very truly yours,

Robert D. Bodnar
